## PROFILE

I work remotely from Valencia. These years have been product work: React interfaces, Node.js services, Zoho CRM and language models (ChatGPT, Claude and Grok), with Cursor as the editor. Behind that are more than 18 years with PHP, Laravel, Magento and WordPress, for teams in Venezuela, the United States, Spain and Chile. Over the last four or five years I also set the order of the work, review it, and keep development and the business on the same page.

## CURRENT FOCUS

**Node.js and React.** The screen in React and the service in Node.js, with the same record on both sides.

**Zoho CRM.** Fields, automations and development so sales and operations look at the same record.

**AI models.** ChatGPT, Claude and Grok. I write the code in Cursor. Assistants, extraction and classification inside the flow the person is already using.

**Leadership.** A year as team leader at Nearsource. Over the last four or five years I still write code, and I set priorities, review, and turn a business request into work the team can ship.

## EXPERIENCE

Jan 2022 – Jan 2025

### PHP specialist · ACL · WOM

Santiago, Chile

- Three years on WOM's public site, a telecom company, through ACL. PHP, Laravel, WordPress, MySQL and Git, on a site that was already live.
- Help center in WordPress: custom theme, a feedback form tied to a dashboard, and an automated path to production. First organic Google result, about 8% fewer billing calls, and a deploy from hours to minutes.
- Lead capture for insurance and assistance, B2B partnerships and mobile internet for businesses, outside the existing store. The business team could run those flows.

Aug 2021 – Jun 2023

### Magento developer · VASS LATAM

Santiago, Chile

- Magento 1 and 2 stores: custom modules and admin configuration.
- External services and third-party APIs connected to the store.
- Deploys through Apache, Nginx, Docker and AWS, in short cycles.

Oct 2020 – Oct 2021

### Senior software developer · Qaroní

A Coruña, Spain

- Laravel modules that could be tested and reused when the request changed.
- REST APIs, bottlenecks, and pieces of the architecture that were already in the way.
- Front-end interfaces wired to the backend.

Jun 2020 – Oct 2020

### Magento developer · The Etailers

Spain

- Four months on Magento 1 and 2 sites: themes, templates, modules and the admin.
- When an integration failed, finding the point where it broke.

Jun 2017 – Oct 2018

### Senior PHP developer · Nearsource

Boca Raton, United States

- Modules on Symfony and CodeIgniter.
- WordPress plugins and payment gateways for WooCommerce.

Jun 2016 – Jun 2017

### Team leader · Nearsource

Boca Raton, United States

- The order of the work, the review, and delivery of what the team had committed to.

Jun 2014 – Jun 2016

### PHP developer · Nearsource

Boca Raton, United States

- Laravel modules, with MySQL and PostgreSQL.
- Code review and version control as part of the team's day.

Jun 2013 – Oct 2015

### Web developer · Katanoia

Venezuela

- PHP websites and web applications.

Jul 2011 – Jul 2015

**CEO · Exprésalo**

Venezuela

- Ran Exprésalo, an SMS web application, at expresalo.com.ve.

2005 – 2013

**PHP developer · Independent**

Venezuela

- Custom PHP sites and applications, before the longer engagements.

## SKILLS

**Now.** Team leadership, Node.js, React, Zoho CRM, ChatGPT, Claude, Grok, Cursor, JavaScript, APIs.

**Base.** PHP, Laravel, Symfony, CodeIgniter, Magento, WooCommerce, WordPress, PrestaShop, MySQL, PostgreSQL, Linux, Git, Docker, AWS, Nginx, Apache, Scrum, PHPUnit, technical SEO, Python.

## EDUCATION

**Systems engineering**

Universidad de los Andes, Mérida. 2006–2014.

**English · IELTS**

Taken through EF, October 2023. Spanish is my first language.

## INTERNET GOVERNANCE

Fellow and Internet Society ambassador, 2012–2018. ISOC Venezuela, the Youth Observatory and LACNIC's Líderes program.

- 2012 · Fellow, 5th IGF prep., Bogotá.
